

SOUTH DEVON COLLEGE

Freedom of Information Act 2000

Publication Scheme

1. INTRODUCTION

1.1 What is the Publication Scheme?

The Publication Scheme ('The Scheme') is a complete guide to the information routinely published by South Devon College, or which it is intended to publish. It is not a list of the actual publications, since this will change as new items are published but rather it is a description of the 'classes' or types of information published. The classes of information are described in the scheme.

Adopting a publication scheme is a requirement of Section 19 of the Freedom of Information Act 2000. The purpose of the Act is to promote greater openness by public authorities (ie government and other public sector organisations, including Universities and Colleges).

With effect from 01 January 2009, a revised Model Publication Scheme has been prepared and approved by the Information Commissioner. This Scheme may be adopted without modification by any public authority without further approval. It will remain valid until further notice.

With effect from 01 January 2009 South Devon College will adopt this Model Publication Scheme.

1.2 How can you obtain information covered by the Scheme?

South Devon College will make available items that belong to classes in the Publication Scheme.

Our preferred means of publication is in electronic format via the College's website www.southdevon.ac.uk.

1.3 How much do printed publications cost?

Much of our information is published on our website www.southdevon.ac.uk. If requested, we will produce publications in other formats; in these cases we will usually make a charge amounting to the cost of producing the item in the format requested and sending it, with a minimum charge of £5. In certain circumstances the College may waive the charge.

If you are not able to obtain what you require from the website (www.southdevon.ac.uk) then please indicate clearly what information you require, and address all applications for information to:
